

92 Panorama Crescent Mount Riverview NSW

3 2

Set in a peaceful street and a wonderful position backing bush, is this beautiful family home. With good size living areas, three in total and multiple living area options it's got the size and space that one could need. As you stand on the rear entertaining deck you will just love the sparkling in ground pool in the foreground as you take in the bush aspect across the back of the yard. This home still has yard for the kids to play and downstairs there is a possible teenage or parents retreat which still needs some completing or would be very suitable for a home office with the separate entrance. Well worth your inspection and consideration.

Type : House
