

15A Bridge Road Blaxland NSW

3 1

This solar passive, ecologically designed home has been built with energy conservation in mind. Featuring two large, north facing living areas with tree top views and constructed out of crushed sandstone bricks (ideal insulation) you will notice your power bills decrease dramatically. This architecturally designed home features three double bedrooms, formal entrance, 3.6 metre ceilings, brand new designer kitchen featuring granite bench tops and smeg appliances, built in sandstone fireplace, large bathroom with cathedral ceilings, study, second toilet, storeroom/cellar, attic space which could be converted into a fourth bedroom with skylight and views across the gully and a host of extras that need to be seen to be believed in this one off design. Located on a private parcel of land, just under an acre this home is an easy stroll
