This immaculately presented double storey five bedroom home is not your average home. It has too many features to mention, better to inspect for yourself and make your own decision; there is space to spare, inside and out. With a long summer ahead, relax and cool off in the in ground pool. For the boys, there's a large double garage and workshop and loads of undercover car space. Located close to schools and public transport, this home would be ideal for the growing family. Be sure to inspect soon - you could move in before Christmas!
